C.I. HAYES INSTALLS LOW DEWPOINT HUMPSBACK BRAZING FURNACE

C.I. Hayes, a Gasbarre Furnace Group company, is pleased to announce the recent installation of a Humpback Conveyor Belt Furnace for brazing of stainless steel parts to be used in the electrical industry. The furnace operates with low dewpoint hydrogen atmosphere and a maximum operating temperature of 2,100°F (1,149°C). The furnace also includes a dewpoint and oxygen monitoring system and communications that allow for remote login and troubleshooting.

Located in Cranston, RI, C.I. Hayes designs, manufactures and services industrial vacuum and atmosphere heat treating equipment and has been delivering custom solutions to the heat treating industry for 109 years.
